

How to upload images to V-A-S Galleries

Uploading photos to the main website galleries is very easy to do, first thing you would have to be a fully paid V-A-S member, email Dimitris with your name and address for verification. Dimitris then will create an account for you and once he has done that, he will email you to let you know that you are now ready to upload to the V-A-S Galleries and give you your Username and Password.

Okay I have received the conformation email from Dimitris, what do I do next?

You need to login now with the Username & Password Dimitris has created for you; [you will find this on the top of the page].

Okay I have done that and I am in the main gallery page what do I do next?

On the grey window they are four buttons, click on the first button the one that saying **create/order my albums** a new window will open up called *Album Manager* and in the middle of the page you will see a grey box, bottom right of this box there are two buttons **Delete & New** click on the **new button** and the word New Album will appear on a grey box & on the bottom of the grey box, this is where you type your name in, and whatever you type in there it will appear on your album please use your real name again, user ID's are not allowed again, so once you are happy with the name, click on the Apply Modification a conformation window will ask you if you want to make that modification, click yes, on the next window press continue and you will be back to the galleries page .

Okay I have done all that what do I do next?

Okay you are ready to upload photos to the site now, on the top left of the page you will see a button called **Upload file**, click on it and a page will open up with ten uploading windows with a browse button on it, **click on the browse button** and find the images you want to upload, double click on the images to add to the window, do the same for all the images you want to upload [max.10] at a time, and press the continue button on the bottom of the page, wait a few seconds and press continue once again to the next page, select your album (your name) add any comments & titles to the photo and press the continue button once again, and yet again for the photo to be added to the galleries, **please note** you will have to do that to all the photos you have just uploaded not just the first one. Now you can view all your photos under your name in the user galleries.

What size photos and format are allowed on the V-A-S Galleries?

The allowed size is **800** pixels wide and no more than **250kb** in file size and the format have to be **JPG**. This way we can have a lot more photos on the database, plus we have to think of people with slow connections, there is nothing worse than having to wait a long time for

the image to open up, [I personally find this very off putting and most of the times I will not go any further]

How many photos am I allowed to upload to the V-A-S Galleries?

Valley Aviation Society does not set any limits to the amount of photos each member has on the galleries, each member can have as many photos they like, however, be selective only **upload your best images**, the Society is trying to promote our site as one of the best quality images website from in and around North Wales, for this reason you should use the V-A-S galleries the same way you would use your online portfolio, this way the visitors to the galleries will enjoy their visit and hopefully come back again.

The society hope you find this site useful and we are looking forward to see some of your photos on the V-A-S Galleries soon.

Helpful links:

The Valley Aviation Society Main Website:

<http://www.valleyaviationsociety.net>

This is the V-A-S main website; you will find all sorts of information there from rumours' to images, air band frequencies and more importantly what does the society is all about.

The Valley Aviation Society Mailing List:

<http://groups.google.co.uk/group/vas-group?hl=en>

This is the V-A-S mailing list, where emails regarding any news from the society or RAF Valley are delivered direct to your email box, [outlook express, Mozilla thunderbird ect, ect.]

Please note: you need to first create an account with Google to be able to become a member on the V-A-S mailing list. Simply register for a Google account with your own email address. (No need to create new email address just use your current one)

For a step by step guide as to how to register for the V-A-S mailing list, please read the PDF files below
